Dear Ms Beasley

After reviewing the materials sent the Company by your agency, and revewing our shipping records and waste manifests back through 1984; the Company has not found any record to indicate that any waste was sent to the land-fill in question. An inquiry has been sent to the FOIA officer at Region V, requesting such information as may exist which would connect the Company to his site.

If information is forthcoming which indicates a potential liability on the part of the Company, the Company would seek to negotiate a "De Minimus" settlement as the portion of the cleanup costs which could possibly be attributed to the Company are much less than one one hundredth of one per cent.

If you have any further questions regarding this matter, please address your concerns to: William Daly

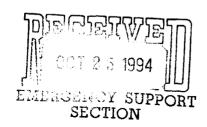

Card-O-Link Company 1948 Ridge Avenue Evanston, IL, 60201 (708) 866-9204

Sincerely,

William Daly Plant Engineer

Linda Beasley
